Length Measurement Directions: Measure fish from tip of nose (or lower jaw) to tip of tail in a straight line (DO NOT measure in a curve around body from nose to tail). Measure to closest 1/8 inch. Tail and Jaw should be pinched together.

MASTER ANGLER AWARDS INFORMATION/RULES FOR ALL ENTRIES:

- All fish must be taken by legal Michigan sportfishing methods, during open season, and in **Waters of Michigan Open to the Public.**
- CLOSE-UP, CLEAR, SIDE-VIEW**, photograph of the entire fish, **MUST BE** submitted for identification IF the entry has not been identified by a DNR Fisheries Biologist. Please try to show the fins and tail in a spread out position, if possible. Color photograph preferred.
- Entries for the previous calendar year must be received in the Fisheries Division Office **no later than JANUARY 10th.**
- Fisheries Division reserves the right to reject any application if the entry does not meet the established criteria.
- See Catch and Keep Entries or Catch and Release Entries (reverse side) for additional entry requirements.
- Submit entry and photograph to:

**FISHERIES DIVISION,
MICHIGAN DEPARTMENT OF NATURAL RESOURCES,
PO BOX 30446
LANSING MI 48909-7946**

Or submit to the nearest DNR Office.

MASTER ANGLER AWARDS INFORMATION/RULES (continued)

FOR CATCH AND KEEP ENTRIES: (in addition to the required photographs)

1. Weigh fish on inspected scales (grocery stores, meat markets, etc.) and record the inspection date of the scale and, if possible, the inspector's name. (The owner of the scale should have a record slip of inspection date and inspector's name if this information cannot be located on the scale).
2. **Obtain the signature of two witnesses verifying weight.**
3. If the fish exceeds the listed State Record (see below), you **MUST CONTACT** a DNR Fisheries Biologist for positive identification and verification. To be certified as a State Record, the fish must be **FRESH** or **FRESH FROZEN**. Mounted fish will not be considered for a record. Entries should be kept frozen for at least two weeks past submission of application form in the event further identification is required.

FOR CATCH AND RELEASE ENTRIES: (in addition to the required photographs)

1. It is not necessary to submit a weight for Catch and Release entries. However for Catch and Release entries you must have the signature of one witness to verify length.
2. Do not keep the fish out of the water any longer than you can hold your breath underwater. Entries received without proper identification (photo and/or biologist's signature will be returned).
3. Length measurements for Catch and Release fish should be made with a good grade metal tape measure, wood or metal yardstick. Measurements to be in inches to the nearest 1/8-inch (see **Length Measurement Directions**).

Handsome arm patches are awarded to all entries meeting established minimum weights, or, in the case of Catch and Release, minimum lengths. Except that no more than one patch per species will be awarded to each angler per year. Master Angler Certificates, suitable for framing, are awarded to anglers who catch State Record fish or are one of the top 5 fish of each species in both the Catch and Keep and Catch and Release category. There are two categories of entry; Catch and Keep and Catch and Release.

Minimum Lengths apply to Catch and Release entries Only / Minimum Weights apply to Catch and Keep entries Only
